

Take a course taught by Andrew F. Hayes on the use of PROCESS in 2020.

Participants in any of these courses will receive a beta version of PROCESS for R before it is released to the public near the end of 2020.

Statistical Horizons, May 2020

Mediation, Moderation, and Conditional Process Analysis. This course will be offered May 15-29 2020 online through Statistical Horizons and will emphasize the use of PROCESS for SPSS, SAS, and R. Content will be equivalent to the 2-day in person course frequently offered by Statistical Horizons. Participants can progress through the course material at whatever pace is comfortable. Content will be delivered asynchronously through prerecorded video, with some opportunities for synchronous interaction with Andrew Hayes. Details and registration information are available www.statisticalhorizons.com

Global School in Empirical Research Methods, June 2020

Mediation, Moderation, and Conditional Process Analysis I and II. These two courses will be offered online through the Global School in Empirical Research Methods (GSERM) based at Uni St. Gallen in St. Gallen, Switzerland. They are offered in June 2020 and will emphasize the use of PROCESS for SPSS, SAS, and R. Course II builds on the material presented in course I. See gserm.ch/stgallen for fees and registration information.

The most current workshop schedule is available at www.processmacro.org. If you would like to schedule a private workshop at your institution or for your group (online or in person), send an inquiry to workshop@processmacro.org
